CROATIA OPEN INDOOR – RIJEKA, 12.03.2016.

Croatia Open Indoor 2016. is one of the three rowing competition in Croatia, which is included in the calendar of World Rowing Federation FISA. If you compare the competition in 2015th in Rijeka with <http://www.crash-b.org/> World Indoor Rowing Championship competition in Boston, which is the world's most famous and the most massive competition (about 2,000 rowers) – best time of 2015th competition was achieved by Angel Rodriguez, Cuban national team 05:45.9, world medalist in single sculls. The results achieved in Rijeka, were at the same level.

Rijeka 2015th managed to make this competition international and 250 rowers were competing in all categories, and they came from 12 different rowing clubs. The most valuable results have been achieved in the senior category, as follows:

1. Martin Sinkovic 05: 45.5 achieved a personal record
2. Valent Sinkovic 05: 46.1 achieved a personal record
3. Damir Martin 05: 50.2 achieved a personal record

This is impressive if we know how they finished their rowing season of 2015. Brothers Sinković have successfully defended the world champion title in double sculls, and Damir Martin is the fifth rower in the world in single scull. All of them have made to qualify for the Olympic Games in 2016th in Rio de Janeiro.

On the Croatia Open Indoor 2016th competition which is organized by Rowing Club Jadran Rijeka, we expect to compete the most numerous young rowers in categories of cadets, juniors and then already mentioned most awarded Croatian rowers and the entire Croatian national team in the category of seniors and juniors. We will be happy to accommodate athletes from all countries and rowing clubs.
